Education

Frontend Pro
Oct 2017 - Jan 2018
🔗 Course certificate

Frontend Basic
Aug 2017 - Oct 2017
🔗 Course certificate

Computer Engineering
Dnipro National University
Sep 2017

Highlights

I'm familiar with fast prototyping and release MVP for early test ideas in the real world. It took me about 3 months to analyze requirements, set up development flow, and create the first social discovery MVP (with paying customers) version of the latest released project.

I've hacked a game dedicated to the contest at OdessaJS while sitting at the OdessaJS conference 😊
